

MoMaTrE– Mobile math Trails in Europe Intensive program

The aim of the MoMaTrE project is to work in an international setting to develop mathematical outdoor tasks with the MathCityMap- system to create math trails for 10 to 16 year old students. At the end of the Seminar the math trails will be tested and evaluated in a realistic educational context.

MoMaTrE, a joint international project with 7 partners:

- University Lyon Claude Bernard, France
- Goethe-University Frankfurt, Germany
- The Philosopher University Nitra, Slovakia
- ISEP, Porto, Portugal
- INESC-ID, Lisboa, Portugal
- Autentek GmbH, Berlin, Germany

The two-week Intensive Programme takes place

- during the period 2019-03-18 – 2019-03-30
- at the Goethe-University Frankfurt, Germany
